MEMORANDUM FOR THE RECORD

SUBJECT: Operational Expenses - Security Escorts

During the past week this office has received several queries relative to expenses encountered by individuals performing "baby-sitting" missions. When these individuals are performing such duties it is necessary, for security reasons, that these individuals remain at all times in the company of personnel being escorted. Such a requirement often results in the escort encountering expenses he would not normally incur. Accordingly, it is the opinion of the Administrative Staff that such expenses are operationally justified and should be included as one of the provisions when Requests for Travel are prepared for security escorts.
